Food Safety is a significant consideration for all farms, especially those selling wholesale produce. If the thought of navigating certifications, wading through paperwork and creating a farm food safety plan seem daunting, this training is for you. Come get an overview of the Food Safety Modernization Act, learn the latest in farm food safety, find out about GroupGAP in Michigan, and get help developing or updating your farm's food safety plan. You will be in good company as you join farmers from around the U.P. who are working together to create a culture of food safety.

THIS TRAINING IS REQUIRED FOR FARMS SUPPLYING PRODUCE TO THE MARQUETTE FOOD CO-OP.
