Judge’s Scoring & Comment Sheet

(PLEASE DO NOT REMOVE, PLACE THIS SHEET IN SHEET PROTECTOR OR GLUE TO COVER). This sheet must be kept free to the judge to write their comments.

This sheet should help each junior market member understand their ribbon placing.

A. Specific educational value or worth

___ All questions were answered completely

___ All calculations were correct

___ Calculations were incorrect

___ Questions were not completely answered

___ Questions were not answered (missed questions)

B. Notebook contains all project records

___ Notebook contained all project records and were fully completed

___ Notebook contained additional project related information (research materials etc.)

___ Project records were incomplete

___ There was no additional project related information

C. Accuracy, neatness and general appearance

___ Notebook was neat in appearance (typed/hand printed)

___ Notebook pages were clean and stain free

___ Notebook pages were in order and complete

___ Notebook pages were out of order and missing pages

___ Notebook was difficult to read and messy

___ Notebook had wrinkled and stained pages

Other Comments: __________________________________________________________________________

__________________________________________________________________________________________

__________________________________________________________________________________________
1. Develop desirable work habits, sportsmanship, and the ability to cooperate and express ideas through participation in projects, discussions, method demonstrations, judging teams, and exhibits.

2. Develop responsibility, leadership, citizenship, and decision-making skills

3. Learn to know and select a good saddle horse

4. Learn to care for horses properly

5. Develop knowledge of safety precautions to prevent injury to yourself, others, and your mount

6. Learn to ride

7. Learn to train and handle horses

8. Gain knowledge of major breeds, colors, gaits, and safety

9. Experience the pride of working with a horse or pony and being responsible for its management

10. Develop an appreciation of horseback riding as a healthy and wholesome form of recreation

11. Learn skills in horsemanship and gain an understanding of the business of breeding, raising, and training horses

12. Acquire information on the opportunities available for careers working with horses.

13. Learn the importance of the horse industry to the local, state, and national economies.

This record book is part of your Level 3 Horse Project. By keeping records up-to-date you will be able to see how much progress you make as you set goals and work to accomplish them. Write or type neatly and clearly. Please keep the pages in order. Feel free to add extra pages at the end of your notebook. Pictures are a required part of your notebook. Taking pictures of your project animal throughout the project will indicate how your animal has grown and developed. Add pictures to your notebook on a separate piece of paper.
Rider & Horse Information

What is the breed & gender of your horse/pony?

_________________________________________________________________________

What color is your horse/pony? Does it have any distinctive markings or scars?

_________________________________________________________________________

What is the age of your horse/pony? _____________________________________________

What is the height of your horse/pony in hands? ____________________________________

What is the weight of your horse/pony? (refer to diagram below, show all work)

The weight equation is as follows:

\[
(HG^2 \times BL) \div 330 = W
\]

**HG** = Horse’s Heart Girth in Inches

**BL** = Horse’s Body Length in Inches from point of shoulder to point of buttocks

**W** = Horse’s Weight in Pounds

\[
(\underline{\hspace{2cm}}^2 \times \underline{\hspace{2cm}}) \div 330 = \underline{\hspace{2cm}} \text{lbs.}
\]

Define what the heart girth is. Then describe how you measure for it.

_________________________________________________________________________

_________________________________________________________________________

_________________________________________________________________________

_________________________________________________________________________
How long have you leased or owned your horse/pony? ________________________________

Where is your horse/pony kept? Is it boarded or at your home? ________________________________

What are your responsibilities in caring for your horse/pony? (i.e: cleaning stalls, feed/water, turning them out, cleaning barns)

___________________________________________________________________________________

___________________________________________________________________________________

___________________________________________________________________________________

___________________________________________________________________________________

Is your horse/pony registered? If so, what are some significant blood lines it carries?

___________________________________________________________________________________

___________________________________________________________________________________

If your horse/pony is not registered, what are some significant traits of the breed (i.e: what are Quarter Horses known, what are Arabians known for)?

___________________________________________________________________________________

___________________________________________________________________________________

Tell us the background story of you and your horse/pony. How did you meet? Where did you get it from? What was it like when you first started working with your horse, was it easy or difficult? Let us know how your journey together started!

___________________________________________________________________________________

___________________________________________________________________________________

___________________________________________________________________________________

___________________________________________________________________________________

___________________________________________________________________________________

___________________________________________________________________________________
**Equipment List**

Name three (3) tools you use to groom your horse/pony and explain the function of each tool.

1. __________________________________________
2. __________________________________________
3. __________________________________________

Explain the types of saddles you use with your horse/pony. What saddles do you use (i.e: All Purpose, Dressage, Saddle Seat, Western, Roping, etc.)? What are their widths? What kind of ‘trees’ do they have? Why do you use these styles of saddles?

Identify two pieces of equipment you use with you horse/pony that need to be cleaned on a regular basis. Explain how you clean them and what you use.

1. __________________________________________
2. __________________________________________

Bits help control a horse by putting pressure on one or more particular parts of its head or mouth. Different bits and bridle parts apply pressure to specific places. In general, there are seven pressure control points, and specific parts of the bridle that affect them.

**Assign a Part of the Bridle to the Pressure Control Point**

<table>
<thead>
<tr>
<th>PART OF BRIDLE</th>
<th>PRESSURE CONTROL POINT</th>
<th>Letter of Corresponding Bridle Part</th>
</tr>
</thead>
<tbody>
<tr>
<td>A) Curb Chain</td>
<td>Bridge of the Nose</td>
<td></td>
</tr>
<tr>
<td>B) All Mouthpieces</td>
<td>Chin Groove</td>
<td></td>
</tr>
<tr>
<td>C) Chain, three-piece snaffles</td>
<td>Corners of the Mouth</td>
<td></td>
</tr>
<tr>
<td>D) Hackamore</td>
<td>Bars of the Mouth</td>
<td></td>
</tr>
<tr>
<td>E) All Bits with Mouthpieces</td>
<td>Roof of the mouth</td>
<td></td>
</tr>
<tr>
<td>F) High Ports</td>
<td>Tongue</td>
<td></td>
</tr>
<tr>
<td>G) Bits with Shanks and draw gags</td>
<td>Pol</td>
<td></td>
</tr>
</tbody>
</table>
**Feed**

Do you give your horse/pony any feed supplements (such as pelleted grain, mash or oats)?

If so, what kind of feed(s) do you use and how much? What are the major nutrients of the feed and the percentages from the analysis label? Include the feed label (or a copy) in the back of your notebook.

<table>
<thead>
<tr>
<th>Type of Feed and Quantity:</th>
<th>Type of Feed and Quantity:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nutrient 1 and Percentage:</td>
<td>Nutrient 1 and Percentage:</td>
</tr>
<tr>
<td>Nutrient 2 and Percentage:</td>
<td>Nutrient 2 and Percentage:</td>
</tr>
<tr>
<td>Nutrient 3 and Percentage:</td>
<td>Nutrient 3 and Percentage:</td>
</tr>
</tbody>
</table>

What kind of hay do you feed your horse/pony? What cutting? (i.e: Orchardgrass, Alfalfa, Timothy, etc.)

Briefly discuss some of the problems which may be involved with the grazing of:

1) Sorghum type plant

2) Fescue

3) Clover
Calculate the quantity of hay your horse/pony consumes. For small bales you must find out how much an average bale weighs. Then guess at what portion of a bale the horse/pony eats, like ¼ or ½ a bale per day. Example, if it eats ¼ bale per day you would multiply .25 times your bale weight and you’d have your lbs. per day. Then use those figures in this formula:

\[
\frac{\text{Lbs.} \times 7}{\text{days/week}} = \frac{\text{Lbs.}}{\text{Weight of Bale}} \div \frac{\text{Bales/week}}{}
\]

\[
\frac{\text{Lbs.}}{\text{days/week}} = \frac{\text{Lbs.}}{\text{weeks/month}} \times \frac{4}{\text{Bales/month}}
\]

\[
\frac{\text{Lbs.}}{\text{days/week}} = \frac{\text{Lbs.}}{\text{months/year}} \times \frac{12}{\text{Bales/year}}
\]

How much does your hay cost? $_________________________ per bale

Please list 4 types of hay.

1. ________________________________
2. ________________________________
3. ________________________________
4. ________________________________

Please list 4 types of Grain Concentrates or Protein Supplements

1. ________________________________
2. ________________________________
3. ________________________________
4. ________________________________

Vet Care & Health

<table>
<thead>

Horse Digestion

---

LABEL the parts of the digestive system and EXPLAIN the function of each part.

A. Cecum______________________________________________________________

B. Large Colon________________________________________________________

C. Mouth____________________________________________________________

D. Small Colon________________________________________________________

E. Small Intestine_____________________________________________________

F. Stomach___________________________________________________________

LABEL the:   G. Fore-Gut    and    H. Hind-Gut
**Water Consumption**

Please fill in the estimated water requirements based on a 1,102 pound horse on a 68° day.

*Many factors influence how much water a horse needs. Please use this as a guide.*

*Make sure you provide adequate water for the horse without allowing it to overconsume after exercise.*

https://www.ag.ndsu.edu/pubs/ansci/livestoc/as1763.pdf

A **non-working/idle** horse requires __________ gallons of water daily.

A horse in **gestation (pregnant)** requires ____________ gallons of water daily.

A horse in **peak lactation** requires _________ gallons of water daily.

A **moderately working** horse requires ____________ gallons of water daily.

List a field test to determine if a horse is dehydrated____________________________

**Field of Vision**

Diagram a horse’s field of vision.

Include Binocular vision, monocular vision and blind spots.

![Horse Diagram](image)

**Horseback Riding Aids**

List a rider’s 4 natural aids:  
1. ____________________________  
2. ____________________________  
3. ____________________________  
4. ____________________________

List 4 artificial aids:  
1. ____________________________  
2. ____________________________  
3. ____________________________  
4. ____________________________
Horse Condition Scoring System

The body condition or degree of fat cover of horses is a good indicator of their general health. The process for evaluating body condition is quite simple. The evaluator needs to make both a visual appraisal and a manual appraisal of the fat cover over the Point of Buttock, Tailhead, Point of Hip, Back, Withers, Crest of Neck, Behind Shoulder, and Over Ribs. It is also useful to observe the horse in motion, especially when evaluating the fat cover over the ribs.

The following table may be used to estimate your horse’s fitness.

<table>
<thead>
<tr>
<th>SCORE</th>
<th>CONDITION DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1- Poor</td>
<td>Animal extremely emaciated. Spinous processes, ribs, tailhead, and point of hip and point of buttocks project prominently; bone structure of withers, shoulders, and neck easily noticeable; no fatty tissue can be felt.</td>
</tr>
<tr>
<td>2- Very Thin</td>
<td>Animal emaciated. Slight fat covering over the base of spinous processes; transverse processes of the lumbar vertebrae feel rounded; spinous processes, ribs, tailhead, and point of hip and point of buttocks prominent; withers, shoulders, and neck structures faintly discernible.</td>
</tr>
<tr>
<td>3- Thin</td>
<td>Fat built up about halfway on the spinous processes; transverse processes cannot be felt; slight fat cover over ribs; spinous processes and ribs easily discernible; tailhead prominent, but individual vertebrae cannot be identified visually; point of buttocks appear rounded but easily discernible; point of hip not distinguishable; withers, shoulders, and neck accentuated.</td>
</tr>
<tr>
<td>4- Moderately Thin</td>
<td>Slight ridge along back; faint outline of ribs discernible; tailhead prominence depends on conformation, but fat can be felt around it; point of hip not discernible; withers, shoulders, and neck not obviously thin.</td>
</tr>
<tr>
<td>5- Moderate</td>
<td>Back is flat (no crease or ridge); ribs not visually distinguishable but easily felt; fat around tailhead beginning to feel spongy; withers appear rounded over spinous processes; shoulders and neck blend smoothly into body.</td>
</tr>
<tr>
<td>6- Moderate to Fleshy</td>
<td>May be slight crease down back; fat over ribs spongy; fat around tailhead soft; fat beginning to be deposited along the side of withers, behind shoulders, and along the sides of neck.</td>
</tr>
<tr>
<td>7- Fleshy</td>
<td>May have crease down back; individual ribs can be felt, but there is noticeable fat between ribs; fat around tailhead soft; fat deposited along withers, behind shoulders, and along neck.</td>
</tr>
<tr>
<td>8- Fat</td>
<td>Crease down back; difficult to feel ribs; fat around tailhead very soft; area along withers filled with fat; area behind shoulder filled with fat; noticeable thickening of neck; fat deposited along inner thighs.</td>
</tr>
<tr>
<td>9- Extremely Fat</td>
<td>Obvious crease down back; patchy fat appearing over ribs; bulging fat around tailhead, along withers, behind shoulders, and along neck; fat along inner thighs may cause them to rub together; flank filled with fat.</td>
</tr>
</tbody>
</table>

Assign your horse a Condition Score and provide rational.
Patterns

Create your own REINING pattern that could be performed at a show. You must include the arena dimensions needed. Please have a key that identifies all instructions (should include a written list.) Also label a start, finish and position of the judge.

KEY:
Events you Attended to Enhance your 4-H Experience

In the space provided, please tell us of the events/competitions/clinics you attended with your animal. Where were they? What did you do at them? If you were placed, how did you perform?
There are many things to learn in 4-H. Mark each item that you have learned or improved on.

I've learned or improved my ability to…

**HEAD (Independence)**
- ___ try something new
- ___ set goals for myself
- ___ plan a project
- ___ keep myself organized
- ___ keep track of finances
- ___ keep records of my work
- ___ gain knowledge of my project
- ___ use resources wisely
- ___ run a meeting
- ___ solve a problem

**HANDS (Generosity)**
- ___ work with others
- ___ work in a group setting
- ___ work with adults
- ___ help others succeed
- ___ lead others
- ___ perform community service
- ___ get past differences to reach a goal
- ___ make something with my hands
- ___ using my efforts to make a difference
- ___ take initiative to start something on my own

**HEART (Belonging)**
- ___ give a public presentation
- ___ share my feelings or point of view
- ___ being a part of a committee
- ___ listen to others
- ___ respect another's opinion
- ___ make new friends
- ___ stand up for others
- ___ appreciate others

**HEALTH (Mastery)**
- ___ understand my strengths and weaknesses
- ___ finish something I started
- ___ accept change
- ___ take responsibility for myself
- ___ stay healthy
- ___ deal with winning and losing
- ___ be careful and practice safety
- ___ understand the importance of my health

The motto of 4-H is “learn by doing.” Each year we learn something new by participating in a 4-H project.

**4-H Story**

Please write a story that explains:

— Horsemanship accomplishments you achieved this year.
— Skills you had difficulty with and how you did/could fix them.
— Goals you are setting for next year.

Other examples that you may consider writing about include: something that happened that was funny, sad, or exciting; challenges you faced and how you overcame them; who helped you with your project and how they contributed; things you are most proud of. Feel free to relate your 4-H
experience to other parts of your life (school, home, family, friends, etc.). Stories should be at least five sentences. Please attach additional pages.
You need 9 total points earned in the following way, 6 meeting points (each meeting is worth 1 point), 1 point from either horse camp or one of the OCHDC sponsored youth shows or OCHDC horse clinic, and 2 non club points. This sheet is to be kept with your notebook and will be checked before you go to the State 4-H show or at the Fair on entry day.
