ACEE …

★ Is governed by a Committee of volunteers and operates under the direction of the Allegan County MSU Extension office and 4H Council.

★ Is supported by grants, donations, and fundraising. **No tuition or fees are charged to the students.**

★ relies on approximately -100 volunteers each year to serve as side walkers, horse leaders, groomers, Horse care providers and assistants.

★ horses must complete a rigorous evaluation by certified instructors to ensure suitability for the program.

★ students are accepted based on their physician’s assessment and ACEE’s ability to accommodate their disability.

★ students and families come together at the end of the year for an annual awards and recognition banquet.

The major expenses for ACEE include horse and facility usage, insurance and fees for our certified instructors.

I Saw a Child
I saw a child, who couldn’t walk,
Sit on a horse, laugh and talk
Then ride it through a field of daisies
And yet he could not walk unaided.
I saw a child, no legs below,
Sit on a horse and make it go
Through woods of green
And places he had never been
To sit and stare
Except from a chair.
I saw a child who could only crawl
Mount a horse and sit up tall
Put it through degrees of paces
And laugh at the wonder in our faces.
I saw a child born into strife,
Take up and hold the reins of life
And that same child was heard to say,
Thank God for showing me the way…

John Anthony Davies

Therapeutic Benefits of Horseback Riding
According to NARHA

★ Horseback riding improves posture, balance, coordination, strength and flexibility.

★ Horses give the youth a feeling of freedom and independence.

★ Riding is beneficial to those with impaired mobility. The rider seated on a horse is gently and rhythmically moved in a manner similar to human walking.

★ Because of the discipline and concentration required, this form of physical activity has proven to be of great benefit to those with mental disorders and particularly beneficial for autistic children.

★ Many psychologically challenged children and adults find a unique relationship with horses.

★ Physical activity and individual accomplishment can be psychologically uplifting and rewarding to the student and enhancing their self-esteem.

4-H Therapeutic Riding Program

MSU is an affirmative-action, equal-opportunity employer. Michigan State University Extension programs and materials are open to all without regard to race, color, national origin, gender, gender identity, religion, age, height, weight, disability, political beliefs, sexual orientation, marital status, family status or veteran status.
Comments from past Participants and Families

♥ “It was one of the few times in years that I saw her be part of the world just like any other young woman. She can’t do so many things that other young women do…such as dating, marriage, go off to college…but she sure looked great on that horse! And she did it herself! Thank you from the bottom of my heart”.

♥ “My daughter’s posture started to improve. This program built self confidence and motor skills and enjoyment at the same time.”

♥ “It gave my son something to look forward to! He seemed independent and less frustrated. What a wonderful program, I can’t thank you enough.”

♥ “I made so many friends!”

BENEFIT HORSE SHOW!
