

## **Kalamazoo County Fair 4-H Arts Guidelines**

- Includes original pictures in various media, original jewelry, and original designs for various uses like greetings, CD covers, fashion, etc. (No kits or copies of other's art)
- One or two pictures of the same media can be entered in one category. Pictures may be the same or different sizes. Subject matter can be any subject including abstract as long as it is appropriate for display in a family atmosphere: seascape, landscape, still life, animals, portraits, geometric, objects, etc.
- Each successive year that youth are in the art project, they should show increased level of exploration or difficulty in technique and/or subject matter. Also they should be ready to talk about what that new goal(s) is that they have for their art work that year with the judge.
- To accomplish the most learning and the most improvement, it is suggested to do multiple art projects in their area of interest each year and then choose the best one or two to exhibit.
- The entry categories of "small" or "large" noted below are approximately sized as the artwork visible in the entry being "small" means 9" x 12" or smaller; then "large" means over 9" x 12".
- If artwork is especially large, like over 4 ft. a good quality photograph(s) should be taken of it and entered. An example is a mural or wall painting.
- Fair entries should be matted, mounted, or framed for best display and for protection of fragile originals. To assist in displaying, please have a secure method of hanging the items.
