

Ecology and Earth Sciences

Nature Scavenger Hunt Form

(Turn in at the Natural Resources/Ecology Division July 14th.)

Be sure to fill out the back side of this form.

Where did you take your nature hike? _____

What was the weather like? _____

If you have an interesting photo of yourself on the hike or something exciting that you found, please attach below. Otherwise, draw a picture of something you discovered – a wildflower, bird, insect, etc. and attach it here with a paperclip or staple.

Checkmark the things you discovered:

_____ Butterfly, grasshopper, or beetle

_____ Spider web

_____ ant hill or even larger colony

_____ animal tracks

_____ berries or other fruit

_____ fallen, rotted trees

_____ five different species of trees

_____ frog or toad

_____ songbird

_____ bird of prey (ex. Owl, eagle, turkey vulture, hawk, etc.)

_____ bird's feathers

_____ Ladybug, praying mantis, or dragonfly

_____ moss or fungi growing on stumps and fallen trees

_____ mammals (squirrels, deer, chipmunks, etc.)

_____ animal scat (droppings/dung)

_____ cocoon or chrysalis

_____ wildflowers

_____ unusual rocks – rose quartz, geodes, fossils, etc.

_____ more than one type of habitat (wetlands, meadows, woodlands, cultivated pasture, desert, beach, tidal pools, etc.)
