Identify and mount ten (10) leaves on a poster board. Place ten (10) completed study sheets in a notebook to be exhibited with your project. Include a summary sheet of your work on this project at the front of the notebook. Each year, add another ten (10) study sheets and leaves to your ongoing project and update your summary sheet. Find tree identification help at [http://forestry.msu.edu/extension/ExtDocs/idents.htm](http://forestry.msu.edu/extension/ExtDocs/idents.htm).

Common Name: ____________________________

Scientific Name: ____________________________

Observation Date: ____________________________ Time: __________

Color: ____________________________

Region (township, village, city, county, etc.): ____________________________

Describe Habitat (field, woods, swamp, etc.): ____________________________

Suitable Soil Type: ____________________________

Water Needs: ____________________________

Light/Shade Needs: ____________________________

Can the tree be legally cut freely, moderately, or not at all? ____________________________

Uses for this tree: ____________________________

Briefly describe any legends or stories about this tree: ____________________________

Your project must also include mounted leaves for each tree studied.

NOTE: This study sheet is to be completed from personal observation and supplemented by research.
