

INTERMEDIATE LEVEL

12-14 year olds
4-H Market Goat Project Report

To be completed by 4-H Goat Project members 12-14 years old by January 1.

Name _____

Address _____ City _____ Zip _____

Club Name _____ No. years in Market Goats _____

Date record started ___/___/___ Date record closed ___/___/___

This record is part of your 4-H Market Goat Project work. By keeping your records up-to-date you will be able to see how much progress you make as you set goals and work to accomplish them. Write neatly and clearly. If you need help, ask your parents and leaders to work with you.

Why keep records? Keeping records on your project can be interesting and fun. Good records will:

- * help you learn about your goat, their rate of growth, the feed they require & behavioral habits
- * improve management practices
- * let you know if you made or lost money and how much
- * provide you with a record of your project activities for future use
- * help you plan future projects

Keep this record as part of your Member Personal 4-H Record, the record book which provides you with an organized system for keeping track of all your 4-H projects and activities on a year-to-year basis. This information is very helpful if you ever apply for 4-H awards or a 4-H scholarship.

PROJECT INFORMATION

1) How did I obtain my project animal? _____

2) I kept my goat(s) in the following type of housing? _____

3) What I did to keep my goat(s) healthy? _____

4) If this is not your first year, tell one thing you did this year to improve your project: _____

PROJECT ANIMALS

Record information on all the market goats you ear-tagged and registered for the project.

Identification of animal (a)	Sex	Date of purchase/birth (b)	purchase price or value at start of project (c)	Died	Sold	Kept	Value of animals that you still have at close of record (d)
			\$.				\$.
			\$.				\$.

Totals (1) \$ _____

(2) \$ _____

- (a) 4-H tag number
- (b) The day you purchased the animal or if you raised the animal date of birth
- (c) If you purchased the animal, list the price. If you raised the animal, list the value, (for example, if you had to buy the animal of similar quality, what would it cost?).
- (d) List the value of those animals that you have at the close of record. If the animal dies, it should be considered a loss.

WEIGHT RECORD

Date of beginning weight is the date your goats were weighed at the start of the project. The date of final weight is the day your goat will be weighed in at the fair. Use the official fair weight for the goat you are entering at the fair. Estimate the weight of you additional goat that remained at home, and enter the weights in the appropriate column. Calculate each individual goat's average daily gain once final weights have been determined/estimated.

Identification of animal	Beginning weight	Final weight	Total lbs. of gain (e)	Date of beginning weight	Date of final weight	Days on feed (f)	Average daily gain (lbs./day) on each individual animal (g)
	lbs	lbs	lbs			days	
	lbs	lbs	lbs			days	

- (e) Total lbs gained = Final weight - beginning weight
- (f) Days on feed = number of days between date of beginning weight and date of final weight
- (g) Average Daily gain = Total lbs. gain (a) / days on feed (b)

PROJECT KNOWLEDGE

Define the following terms:

1. Market Price _____
2. Carcass _____
3. External Parasite _____
4. Internal Parasite _____
5. Vaccination _____

FEED TAG

Using the tag to the right, answer the following questions:

1. Who is the manufacture of this feed? _____

2. Is this feed medicated? _____
3. Is this a Show feed? _____

Michiana Show Goat DC

MEDICATED

**A Complete Feed for Goats
Being Fitted for Show**

For the prevention of coccidiosis in young goats caused by *Eimeria christenseni* and *Eimeria ninakohlyakimovae*.

ACTIVE DRUG INGREDIENT

Decoquinatate(7.6 mg/lb)..... 0.0017%

GUARANTEED ANALYSIS

Crude Protein, Min. 16.0%
(Includes not more than 0.92% equivalent Crude Protein from Non-Protein Nitrogen.)
Crude Fat, Min. 4.0%
Crude Fiber, Max. 8.0%
Calcium (Ca), Min. 0.75% Max. 1.25%
Phosphorus (P), Min. 0.4%
Salt (NaCl), Min. 0.25% Max. 0.75%
Copper (Cu), Min..... 20 ppm..... 30 ppm
Selenium (Se), Min. 0.3 ppm
Vitamin A, Min.6,600 IU per pound

INGREDIENTS

Grain Products, Plant Protein Products, Processed Grain By-Products, Calcium Carbonate, Salt, Molasses Products, Vegetable Oil, Ammonium Chloride, Monocalcium Phosphate, Dicalcium Phosphate, Magnesium Sulfate, Thiamine Mononitrate, Potassium Sulfate, Zinc Amino Acid Complex, Roughage Products, Sodium Selenite, Magnesium Oxide, Ferrous Sulfate, Cobalt Carbonate, Copper Sulfate, Propionic Acid (A Preservative), Calcium Iodate, Manganous Oxide, Manganese Sulfate, Zinc Oxide, Zinc Sulfate, Calcium Sulfate, Mineral Oil, Vitamin A Supplement, Natural and Artificial Flavor, Vitamin D₃ Supplement, Vitamin E Supplement.

FEEDING DIRECTIONS

Feed at the rate of 3 lb per 100 lb of body weight to provide 22.7 mgs of Decoquinatate per 100 pounds of body weight per day. Feed for at least 28 days during periods of coccidiosis exposure or when experience indicates that coccidiosis is likely to be a hazard. Provide good quality hay or pasture and clean, fresh water at all times.

WARNING: Do not feed to goats producing milk for food.

CAUTION: This feed contains copper. Do not feed to sheep or other copper sensitive species. Angora and pygmy breeds have been reported to be sensitive to copper supplementation. Do not use in feeds containing Bentonite. This feed contains a source of non-protein nitrogen. The equivalent protein supplied by non-protein nitrogen should not exceed 1/3 of the crude protein of the total ration. Use only as directed. 06212

Michiana Agra
