General

A. This is what I do to keep my rabbit(s) healthy: ________________________________
______________________________
______________________________
______________________________
______________________________

B. Do you use any type of preventative care? If so, please explain: ________________________________
______________________________
______________________________
______________________________
______________________________

C. I kept my rabbits in the following type of housing: ________________________________
______________________________
______________________________
______________________________
______________________________

D. Explain the method you use for identifying/tattooing your rabbits: ________________________________
______________________________
______________________________
______________________________
______________________________

E. I fed my rabbits the following kinds of feed & used the following type of feeding program: ________________________________
______________________________
______________________________
______________________________
______________________________

F. What are some things rabbits are raised for: ________________________________
______________________________
______________________________
______________________________
______________________________

G. What do you do to prepare your Breeding Stock for show: ________________________________
______________________________
______________________________
______________________________
______________________________

H. What should the age be of your rabbit when you begin breeding: ________________________________

I. On the average, a healthy doe will have a productive breeding life of about how many years: ________________________________
J. Do you consider any characteristics or genetics before breeding your buck & doe (if yes, please explain): 
__________________________________________________________
__________________________________________________________

K. How often do you breed your doe: 
____________________________________________________________________

L. What do you do if your doe is not receptive when you try to breed her: 
____________________________________________________________________

M. What is gestation: 
____________________________________________________________________

N. Explain what you do to prepare your nest box for kindling: (Include the size & material of your nest box) 
____________________________________________________________________
____________________________________________________________________
____________________________________________________________________

O. What do you do to care for your rabbits after kindling: 
____________________________________________________________________
____________________________________________________________________
____________________________________________________________________

P. At what age do kits get fur & open their eyes: 
____________________________________________________________________

Q. At what age do you wean your kits & explain what process you use: 
____________________________________________________________________
____________________________________________________________________

R. What are the signs of heat prostration? 
____________________________________________________________________

S. What are some ways of cooling your rabbits during the extreme summer heat? 
____________________________________________________________________
____________________________________________________________________

T. According to A.R.B.A. list the schedule of points that applies to your particular breed: 
(If you have a crossbred, list the schedule of points that applies)
## General Faults/Eliminations/Disqualifications

Name two (2) things in your breed that would be a:

<table>
<thead>
<tr>
<th>Category</th>
<th>Item 1</th>
<th>Item 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>General fault</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Elimination</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Disqualification</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

## Diseases

### A. Bacterial Diseases

List the names of two (2) bacterial diseases of rabbits, the signs, and tell what treatment(s) you should use to rid your rabbits of these diseases.

<table>
<thead>
<tr>
<th>Bacterial Disease</th>
<th>Signs</th>
<th>Treatment</th>
</tr>
</thead>
