4-H Market Rabbit Project Report
Exhibitors 15 - 19 Years Old

To be completed by other beginner 4-H rabbit project members 15 - 19 years old by January 1.

Name ___________________________ Address ___________________________

Birth Date __/__/____

Member’s age as of January 1 of the current project year ____________

Club Name ___________________________ Project Leader ___________________________

No. Years in the rabbit project ___________ No. Years in the rabbit Project ___________

This record is a part of your 4-H Market Rabbit Project work. By keeping your records up-to-date you will be able to see how much progress you make as you set goals and work to accomplish them. Write neatly and clearly. If you need help, ask your parents and leaders to work with you.

My Project Plans

A. I enrolled in this project because I want to learn: ____________________________________________________________

B. This is how I obtained my project animal(s): _________________________________________________________________

C. This is what I do to keep my animal(s) healthy: ______________________________________________________________

D. I kept my rabbits in the following type of housing: __________________________________________________________

E. I fed my rabbits the following kinds of feed: ________________________________________________________________

My 4-H Market Rabbit Project Pictures

(Attach one picture of your 4-H rabbit project animal(s) at the beginning of your project and one picture of your animal(s) at the end of your project. This will show the growth and development during the project year.)

[Blank space for pictures]
Parts Of A Rabbit

Using proper names, fill in the 23 marked parts of a rabbit.

1. _____________________________________________ 9. _____________________________________________ 17. _____________________________________________
2. _____________________________________________ 10. _____________________________________________ 18. _____________________________________________
3. _____________________________________________ 11. _____________________________________________ 19. _____________________________________________

</table>

Totals  (1) $               .                 (2) $               .

(a) 4-H ear tattoo number.
(b) Applies only if you purchased the animal. If you raised the animal, leave blank.
(c) If you purchased the animal, list the price. If you raised the animal, list the value. (For example, if you had to buy an animal of similar quality, what would it cost?)
(d) List the estimated value of those animals that you have at the close of record. If the animal died, it should be considered a loss. If the animal was sold, list the selling price. If the animal is to be sold at the Small Animal Sale at the fair, estimate the potential selling price (pen of 3) & divide by 3 for individual values.

## Weight Record

Calculate each individual rabbit’s average daily gain (rounding to nearest 100th/lb.) once final weights have been determined. (See instructions for figuring average daily gain).

<table>
<thead>
<tr>
<th>Date of beginning weight (a)</th>
<th>Date of final weight (b)</th>
<th>Days on feed (c)</th>
<th>Identification of animal (d)</th>
<th>Beginning weight (lbs. &amp; 100th/lb.)</th>
<th>Final weight (lbs. &amp; 100th/lb.)</th>
<th>Total weight gain (e) (lbs. &amp; 100th/lb.)</th>
<th>Average daily gain (lbs. &amp; 100th/lb.) on each individual animal (f)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>

<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(a) Date of beginning weight is the date your rabbits were tattooed at the start of the project.
(b) Date of final weight is the date your rabbits were weighed prior to the fair.
(c) Days on feed is the number of days between date of beginning weight, and including the date of final weight.
(d) 4-H tattoo number found in the rabbit’s left ear.
(e) Total weight gain is the difference between the final weight & the beginning weight.
(f) Average daily gain is the total weight gain divided by the number of days on feed.
Essay Questions

1. If you have been in the market rabbit project more than one year, explain the improvements you have made in regards to last year.

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

2. What was your biggest project management problem this year? How did you deal with it?

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

3. What do your records tell you about improving future market rabbit projects?

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

4. What did you learn from your rabbit market project?

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________
Rabbit Digestive System

Left lung removed.
