FANCY BANTAM PROJECT

This is a fun project for the Cloverbuds, allowing them to raise and then bring their chicks to fair.

- Participants must be 4-H ages 5 to 8. This project is ONLY available to Cloverbud 4-H members.
- Each cloverbud will receive two (2) birds; and they are allowed to bring both birds to fair.
- Registered cloverbuds will be notified by email and/or telephone of the date and location to pick up their birds. The birds MUST BE picked up on the specified date.
- Cloverbuds are responsible for all birds received.
- ALL birds MUST be pullorum tested and you must present the test result form when checking in your birds at fair.
- A record book must be completed with this project, checked by the small animal committee at check-in, and then turned in to the fair office by Friday of fair week. If animals die before fair, the record book needs to be turned in to the leader.
- If record books are not turned in, members will not be allowed to participate in the project the following year.
- Cloverbuds are encouraged to participate in the project, but are not allowed to sell at fair.
- Cloverbuds are allowed to donate their birds to the Small Animal Committee, to be sold at the auction, with the money going to the Small Animal Committee.

I have read the above rules and agree to abide by them.
