

4-H Guidelines for Scrapbooking

Scrapbooking is defined as a popular leisure activity that involves a very creative way to display photos and memorabilia items while preserving them in a safe way. Scrapbooking has been around for a long time, but now is done in a totally different way using safe products (acid-free, lignin-free, and pvc-free) and by making our pages more creative.

Preservation of photos, news clippings, etc. is done by placing items on acid-free paper using photo mounts, photo corners or type of adhesive and adding accessories whether it be by pens, stickers, etc. Although it is not required, it is recommended that acid-free materials be used.

<u>Age Groups</u>	<u>Minimum pages required</u>	<u>Maximum pages required</u>
9 - 11	6 pages	10 pages
12 - 14	10 pages	14 pages
15 - 19	14 pages	20 pages

GENERAL GUIDELINES FOR ALL MEMBERS

Learn the importance of preserving photos, news clippings, certificates, etc

Acid free/lignin free materials are preferred but not required

Albums must be 8 1/2 x 11 or 12 x12 size

Albums can be 3-ring binder, post-bound or strap-hinge

Minimum number of pages (based on age groups) must be in page protectors, back to back (ex: 10 page protectors would hold 20 pages back to back)

Not limited to photos only. May include certificates, ribbons, news clippings etc.

Neatness

Creativity - including use of stickers, die cuts, cropped photos, printed papers, punches etc.

Journaling must be displayed on every page. Types of journaling: *title (ex: Christmas, 4-H Fair, Florida trip, summer time, etc.); who, what, when & where (ex: Aunt Mary at the lake for my birthday, summer 1999); story (brief story describing event in photos)*

Title page with name, age & theme
