Ever wished you could spray without a tractor? Come see MSU’s 1st year progress on the development of a commercial scale fixed canopy spray system! The field day will begin and end with a live demonstration of a functioning prototype system. Project researchers will be on hand to explain how the system works and answer your questions on potential applications in apples and sweet cherries.

Agenda:

• 9 AM: Welcome
• 9:15 AM: Apple Demonstration
• 10:00 AM: Cherry Discussion
• 11:00 AM: Apple Demonstration

Open Attendance — No Registration Required
