Planted Impatiens last year? Did they look like this? Downy mildew may have been the cause.

Try an alternative plant for 2013:

- *Browallia speciosa*  
  Browallia

- *Torenia*  
  Wishbone or Clown flower

- *Begonia x hiemalis*  
  Rieger or hiemalis begonia

- *Impatiens hawkeri*  
  New Guinea impatiens

- *Begonia x tuberhybrida*  
  Tuberous begonia

Use your smart phone to find these and other alternative plants that should perform better for you in areas where impatiens didn’t thrive last year.
