MAKING HEALTHY CHOICES: WEEK 18

Homemade convenience

Buying small, ready-to-eat packages of food for snacks and lunches saves time, but you definitely pay extra for the convenience. Try making these foods at home. It probably won’t take as long as you expect, it’ll give your family more options and you’ll save money too!

**Fruit cups**
Fruit cups are a packed lunch favorite, but store-bought varieties usually have a lot of added sugar, which is another great reason to try making your own at home. Look for fresh fruit that’s in season (when it’s cheapest), and divide it into half-cup servings. If the fruit you want isn’t in season and seems a bit pricey, buy large containers of frozen or canned fruit (look for fruit canned in 100-percent juice), then portion it into half-cup servings.

**Veggies & dip**
Choose a variety of vegetables that your family enjoys such as carrots, celery, bell peppers, snap peas, cauliflower, broccoli and mushrooms. Wash, cut, and package the veggies. For the dip, try hummus, cottage cheese, black bean dip or ranch dip made with Greek or plain yogurt (try low-fat). Buy large containers of dip and then divide it into portions for the week ahead.

**Yogurt with fruit & nuts**
Many flavored yogurts (including the fruit flavors) contain a lot of added sugar. Try buying a large container of plain yogurt instead, and separating it into smaller portions. Add flavor and crunch to each container with fruit and nuts such as almonds or walnuts. Use fresh, canned or frozen fruit.

**Did you know?**
Your kids will be more likely to eat homemade convenience foods if you let them choose and prepare some of the ingredients. Give them a range of nutritious ingredients to choose from.

**What about containers?**
Always choose food-safe containers. Beyond that, experiment to find the containers that work best for you and your family. Try small, sealable plastic containers for homemade fruit cups. Try using sealable plastic bags for nuts or homemade trail mix. Sealable jars come in many sizes and could be great for small portions of dip. You don’t have to buy a bunch of new containers – just use whatever food-safe containers you have on hand.

**WEEKLY RECIPE**

Remember to wash your hands and prepare food safely.

**Cheesy Bean Dip (serves 6)**

1. Drain and rinse 1 cup black beans, ½ cup great northern white beans and ½ cup red kidney beans.
2. Add all beans, ¼ cup no-salt-added, diced tomatoes (drained), 2 tablespoons lemon juice, 2 teaspoons apple cider vinegar, 1 teaspoon coriander, 1 teaspoon cumin, 1 teaspoon onion powder, ½ tablespoon garlic powder, and ½ tablespoon chili powder to a blender or food processor and puree until smooth.
3. Divide into six containers with lids and sprinkle each with 1 teaspoon grated parmesan cheese.
4. Store in refrigerator next to portion-sized bags of vegetable sticks for afterschool snacks or toss into family lunches.

MSU Extension programming has something to offer every member of your family

Michigan State University Extension helps people improve their lives by bringing the vast knowledge and resources of MSU directly to individuals, communities and businesses. To help you be healthy at every stage of life, MSU Extension delivers affordable, relevant, evidence-based education to serve the needs of adults, youth and families in urban and rural communities. Programs focus on helping you gain the skills you need to buy and prepare nutritious, budget-friendly foods, increase your physical activity and stretch your food dollars.

MSU Extension’s children and youth programs address needs and issues from birth through age 19, providing parents with educational resources related to your child’s development and giving youth the opportunity through 4-H programs to build leadership and teach practical life skills.

For more information or to join a class, contact your local MSU Extension county office or visit www.msue.msu.edu.

FIND YOUR LOCAL MSU EXTENSION COUNTY OFFICE

With a presence in every Michigan county, Extension faculty and staff members provide tools to live and work better. From a personal meeting to information online, MSU Extension educators work every day to provide the most current information when people need it to ensure success – in the workplace, at home and in the community.

To find your local county office visit msue.msu.edu/county.
